#Experience

Lead Developer

Seven Mountains Media, 2022 – Current

- Led a team of developers and designers to successfully complete complex web development projects within a tight deadline.
- Mentored junior developers and provided guidance and support to improve their skills and knowledge.
- Developed and implemented best practices for web development within the company, resulting in improved efficiency and quality of work.
- Conducted training sessions for clients on how to manage and update their websites effectively.
- Successfully delivered premium websites that matched the requirements and expectations of clients as user-friendly, intuitive, and captivating websites.
- Maintained positive relationships with clients, resulting in repeat business and referrals.

Web Developer

WebFX, 2021 – 2022

- Successfully handled and resolved more than 300 support tickets and tasks related to the development, maintenance, debugging, and optimization of multiple client websites.
- Achieved an average page speed improvement of 15% for multiple clients, including pages scoring over 95 on both desktop and mobile devices, through successful page speed optimizations.
- Led multiple successful launches of client websites, minimizing maintenance downtime to ensure uninterrupted site traffic flow.
- Collaborated with clients and the account team to identify optimal internet-based technologies for enterprise business applications.
- Coordinated and actively participated in full-stack programming, implementation, testing, and support of web-based projects.

Web Developer

Independent Contractor, 2018 – 2021

- Work with clients to determine their specific needs for their website or application.
- Create website layouts, user interfaces, and other design elements.
- Write code that can run on different browsers and devices, and test the website or application on various platforms to ensure compatibility.
- Offer support to clients to help them with any issues they may have with the website or application.
- Integrate the website with external services such as payment gateways, social media platforms, and email marketing software.
- Monitor and update the website on a regular basis to ensure that it remains functional and up-to-date.
